### FOR ANNEXATION

Monster Demonstration by Members N. G. H.

WILL BE HELD AT DRILL SHED

Plans Completed at Headquarters Last Night.

Speakers From Among the Soldiers-Scheme of Lieut

Towse.

After military matters were attended to at headquarters last night the matter of the annexation meeting, under the auspices of the First Regiment, N. G. H., was freely discussed.

Lieut. Ed Towse is the father of the scheme, and from present indications it will be a great success.

The discussion lasted more than an hour, and the opinion of the regiment al officers was unanimous that such meeting should be held, and that ther were men in the ranks capable of ad dressing the large number of people present; it was not necessary to selethe speakers from among the officers It was settled, also, that the meeting should not be held so that it would have the appearance of being "unde orders." A request would be issued the members to attend as individual connected with the N. G. H.

During the meeting Colonel McLean, Lieutenant Colonel Fisher, Major Mc Leod, Capt. Paul Smith, Captain Zeigler and Drum Major King gave ex pression to their ideas as to the char acter of the meeting, and it was the concensus of opinion that it should be a popular turnout of men who wear the uniform of the Republic, not only on account of their interest in the welfare of the nation, but to show their fealty to the Constitution. It would be demonstration by men to show that their sympathies with the movement and to the support of the Government is just as firmly and faithfully cemented as it ever has been

It was suggested that it would be ar extraordinary occasion, and that it would manifest extraordinary feeling upon the part of the men who are ever ready to lend material aid in maintaining the Government. It was felt that an epoch in the history of Republic was rapidly approaching. and that the citizen soldiery should which should be pushed at this end of the line.

TH

It was expressly agreed by the offi-cers present that the details if the meeting should be arranged that they should meet with the approval of the Annexation Club. Nothing will be done that will conflict in any way with the plans of that organization. With a vew to adding to the attractions a regress will be sent to Minister Coopcorps, under the leadership of of Drum assist.

The preliminary plans provide for the first battalion to be stationed on one side of the hall and the second bat-

talion on the other.

There will be a great display of bunting, and the place will present martial appearance.

Special invitations will be issued to members of the Cabinet, First Company Sharpshooters, officers the Annexation Club and officers of the Citizen's Guard. It was decided that the meeting should be held at the Drill Shed on Thursday, January 28, and that the arrangements would be in the hands of a popular committee of 27. This will consist of three men from each company, and three representatives of the officers. So far, only six men have been selected: Lieutenant Towse, Captain Kia and Lieutenant

Fegarty for Company H. It was first thought that there would be one speaker outside the military, but this point was not definitely settled last night. If it is decided that 't would add to the interest in the affan the person will be selected later.

The above has been issued from the Custom House. For some time the practice of bringing in ice-house goods parcels, etc., not manifested, has been carried on by certain parties. The Custom House people have found it necessary to strictly enforce the law relating thereto.

END OF INDUCT N.

Manager Gillespie Will Cable All Telephone Lines.

Fourteen tons of telephone cable arrived by the Zealandia Saturday night for the Mutual Telephone Company. The cables are constructed to carry from 50 to 150 wires. Manager Gillespie is the father of the idea of cabling the telephone wires in Honolulu. He sees in the scheme an early and complete end of induction. In fact, an au thority on electrical matters states that in six months the telephones will be as clear of noise at night as in the day time.

Poles for the cable system are being planted on all the principal streets near the Central office. The town will be divided into telephone districts, and the cables will take the lines as far into them as possible. For instance, Waikiki lines will be taken as far as the King street turn. In town the cables will be numerous and shorter.

Condition of Police Derepublic.

Men In Outer Districts Uniformed. Progress of Target Shooting.

Marshal Brown submitted yesterday to the attorney general the report of the work of his department for the year 1896. It is quite a long document, and combines many features of general interest. Appended are the reports of the sheriffs of the various islands and a list of all the officers in the employ of the department. The following are some of the interesting extracts from the report:

"During the past year the deputy sheriffs and police officers of all the districts have been uniformed and now present as officer-like appearance as do those of Honolulu. This they are required to wear whenever upon duty

The idea I have tried to impress upon the sheriffs and deputies is that police officers, whenever upon duty, must be thoroughly uniformed and already a marked improvement is noticeable throughout the district With the rapidly increasing

Asiatic population, it has become mos important that officers of the peace be thus uniformed, in order that they may be recognized and respected by this class of people. "The police force of Honolulu is o

the of the same relative strength i er to allow the Government Band to was a year ago. The entire force is be present. The regimental drum drilled weekly in military tactics under the command of Robert Parker Major W. C. King, will be present and senior captain of police, in which drill the guards of Oahu Prison also take part.

"The mounted police, numbering 20 men and three officers, are drilled in cavalry tactics. Target shooting is also practiced weekly by both foot and mounted police. The result of such constant drilling and shooting is most noticeable in the improved appearance of the men and the scores made at the butts.

"The Citizens' Guard is in most excellent condition, and consist of eight companies in Honolulu. These are well officered and equipped; the membership of each company being up to the limit, and much interest taken by several such companies in target shooting. Waiwaiole, enrollment committee. enrollment of names in Makawao district has been going on briskly-citizens showing greater readiness than

formerly in supporting the cause. An epidemic of fever has recently broken out in Lahaina, 26 cases being reported. No details as to symptoms, etc., are given, only that it is of a dangerous nature. Adam Kaukau, a na-tive resident, died of it last night.

From Lahaina by telephone the sad news of the death of the wife of Capt. Simerson of the Mauna Loa was re ceived today.

The Saturday night performance of the Montague-Faust circus at Wailuku was broken up by all the lights going out. The asbestos around the lamps had become saturated with salt water on the voyage up on the Norma. Tickets were returned. Exhibitions have been given during the week both at Wailuku and Paia.

The Commercial News publishes the following in its issue of December 23d: The new dock at Dunkirk, which has just been completed, is now the largest in the world, according to the Belgian Times, which appears to make the statement on good authority. It is 600 feet long and 80 feet wide, and will be able to receive the largest vessel at any state of the tide. It has been seven years in course of construction.

Then comes the following in a subsequent issue, which is of general in

"SAN FRANCISCO, Dec. 23, 1896.

"Editor Commercial News: "In your issue of this day is a notice of the completion of a new dock at Dunkirk, and there is an evident discrepancy between the figures given and the statement that it is now the largest in the world. Presuming that dry

docks are intended, the following are some of the larger docks:

"In Liverpool three of the Hercuaneum docks are respectively 753x60, 758x60 and 768x60. In Birkenhead are three docks, 750x50, 750x85 and 930x60 In London, the London and India docks 870x60x27 deep and 875x70x32 deep. In America we have at Newport News, 630x130 on top and 50 at bottom and 25 deep. In Brooklyn, the larger of the Erie basin docks, 620x85x25, and at Navy Yard, 670x711/2x201/2. And en this coast we have the Port Orchard dock, that ranks with some of the above, but the exact size of which I have not at hand at present. Yours very truly,

There are people in Hawaii, who following an old custom, buy their groceries in California believing that they can save money. It is possible this might have been done with success in the long ago, before competition reduced the cost of living on the Islands. It is possible, too, that the people who continue to buy at the Coast are not aware that the canned and bottled goods, (we mean delicacles). may be bought from us at strictly wholesale prices. It is not probable that persons ordering from California order in small quantities; they probably get a case of vegetables or fruits in an order. We are prepared to fill such orders in Hono lulu at astonishingly large discounts from retail prices. The opportunicy is here for you to save money without sending to California.
